RE: Lillian Yachimec- French/English Educational Tutor

Ms. Yachimec aided our grade 2 child as a French/English tutor starting in October of 2021. At the beginning of grade 1(2020) the school coded our daughter with a moderate learning disability. She began coordinated time with a special needs' professional multiple times per week during regular school hours. Throughout the entire year of grade 1 our daughter struggled with French immersion and was significantly behind in her English reading and comprehension. After a year of continued struggle, we sought help from Ms. Yachimec, and she began working with our child 3 times a week after school for an hour.

In the first few months of working with our daughter, Ms. Yachimec had our child reading English books and nearly catching the top peers in her class. By the end of grade 2 with teachers astounded, our daughters learning codes were removed, she was at the top of her class in reading and comprehension, and her love of learning thrived. Now in grade 3, she is consistently achieving top marks in all subject areas and excels in her French language studies. Before we hired Ms. Yachimec, we were considering moving our daughter out of French immersion and into an English program. Within a year of beginning tutoring sessions with Ms. Yachimec the success is almost unimaginable, learning for our daughter has gone from evenings of tearful frustration to eagerness and pride.

Ms. Yachimec is a genuine, caring, and professional educator. She clearly excels in her ability to connect with children and provide a productive individual learning strategy. Her comprehensive educational skillset, patience, adaptability, and years of experience has been invaluable in achieving success for our daughter.

Sincerely,
